

COMPANY OVERVIEW

Iron Gorilla provides runtime governance for AI agents. Every proposed agent action is checked against policy before it executes and is allowed, blocked, or routed for review — producing an audit-ready, cryptographic record of what agents did and why. Governed agents automate complex workflows and reduce manual workload without giving up control, integrating across leading model providers and enterprise tools and supporting cloud, on-premise, and air-gapped deployment for sensitive environments.

CORE COMPETENCIES

- Governed AI agents that automate complex workflows & reduce manual workload
- Pre-execution action control — allow, block, or route for review
- Zero-trust, least-privilege agent architecture
- Runtime governance kernel — policy enforced before any agent action
- Behavioral trust scoring & autonomy-readiness profiling
- Integration across leading model providers, agent frameworks & tools

DIFFERENTIATORS

- Policy is enforced at runtime before execution, creating audit-ready evidence of allowed, blocked, and reviewed actions.
- Designed to integrate across leading model providers, agent frameworks, and enterprise tools.
- Cryptographic chain-of-custody for every agent action — a tamper-evident record for audit and oversight.
- Supports cloud, on-premise, and air-gapped deployment patterns for sensitive environments.

INDUSTRIES SERVED

Defense & public sector

Banking & financial services

Insurance

Healthcare & life sciences

SMB & high-growth startups

COMPANY DATA

Legal Name	Team Clarity, Inc.
DBA	Iron Gorilla
UEI	H5TFEFS9HDT3
CAGE Code	20XL1
SAM.gov	Active — exp. May 2027
Business Type	Small Business · For-Profit
Incorporated	Delaware, USA

NAICS CODES

518210	Computing Infrastructure & Data Processing (Primary)
513210	Software Publishers

PSC CODES

DA10	IT — Application Development SaaS
DH10	IT — Platform as a Service

DEPLOYMENT & SECURITY

- Deployment: cloud, on-premise or air-gapped
- Inference: commercial LLM providers or self-hosted
- Enterprise SSO: SAML, OIDC & SCIM

COMPLIANCE MAPPING

Agent activity mapped to active AI regulation:

NIST AI RMF

EU AI Act

California CCPA / ADMT

Colorado SB26-189

NYC AEDT

UK AI regulation

Canada AIDA
